

Greenlight Communities Breaks Ground on 244-Unit MF in Mesa

July 13, 2020

Scottsdale-based Greenlight Communities broke ground on Cabana on Power, a 244-unit multifamily development in Mesa. The site is located at 6151 S Power Rd. and the “attainable” housing project is expected to fill the void between affordable and luxury apartments.

The land was acquired last October, and construction is set for completion in the summer of 2021. The project will include 102 studio, 96 one-bedroom, and 46 two-bedroom apartments.

Greenlight Communities’ Patricia Watts says, “At Greenlight Communities we have remained steadfast in our pursuit to build over \$300 million of attainable housing apartments in the Phoenix metro area. Mesa will be our fourth community to be completed in the Valley and we are excited to be providing residents in the Southeast Valley the same affordable options that we are now currently leasing in Phoenix.”

Cabana on Power is a joint venture between Greenlight Communities, Holualoa Companies and Isaac Eteminan.
